RADIATION AND RADIOACTIVITY

Citizen's Guide to Radon: What It Is and What to Do About It *Presents information to help the public understand the radon problem in order to determine if action is needed to reduce radon levels in their homes. Also contains a listing of EPA Regional Offices with addresses and telephone numbers.* 1986: 13 p.; ill.
EP 1.8:C 49/2 — S/N 055-000-00258-4 — $1.00

Criteria for a Recommended Standard, Occupational Exposure to Radon Progeny in Underground Mines *Presents a recommended standard for workers exposed to radon progeny in underground mines. This recommended standard is designed to protect the health of underground miners over a working lifetime of 30 years. Intended to help mine operators limit exposure to the lowest possible concentrations.* 1987: 223 p. — S/N 017-033-00433-1 — $12.00

Effects of Nuclear Weapons *Discusses the effects of nuclear explosions at Hiroshima and Nagasaki, Japan, and at test sites, with photographs. Dial in pocket has the title Nuclear Bomb Effects Computer.* 1977: 663 p.; ill., dial in pocket. 1988-repr. Clothbound
D 1.2:N 88/2 — S/N 008-046-00093-0 — $25.00

Fatigue Crack Growth of Part-Through Cracks and Pressure Vessel and Piping Steel: Air Environment Results 1988: 60 p. — S/N 052-010-02387-0 — $5.50

NBS (National Bureau of Standards) Reactor: Summary of Activities, July 1987 Through June 1988 1989: 227 p.; ill.
C 13.46:1257 — S/N 003-003-02920-3 — $11.00

NRC TLD Direct Radiation Monitoring Network (NUREG-0837) *(Quarterly.) Provides the status and results of the NRC thermoluminescent dosimeter (TLD) direct radiation monitoring. It presents the radiation levels measured in the vicinity of NRC licensed facility sites throughout the country. Subscription price: Domestic - $17.00 a year; Foreign - $21.25 a year. Single copy price: Domestic - $13.00 a copy; Foreign - $16.25 a copy. (NORMN) (File Code 2T)*
Y 3.N 88:43/ — S/N 752-014-00000-1

Radiologic Technology 1983: 569 p.; ill.
D 301.6:160-30 — S/N 008-070-00581-6 — $26.00

Radiological Assessment, A Textbook on Environmental Dose Analysis *Written primarily as a graduate-level textbook, incorporating both example problems and working problems. Also intended to be a reference manual to explain and assist in the use of models for radiological assessments in the preparation of environmental impact statements, engineering design of facilities, and release of radionuclides from operating facilities.* 1983: 825 p.; ill. Clothbound
Y 3.N 88:25/3332 — S/N 052-010-02013-7 — $48.00

Radon Reduction Methods: A Homeowners Guide *Describes various methods which may be used to keep radon from entering a home and to reduce the levels of radon already in the home. The reduction methods described in this booklet are concerned primarily with radon that enters a house from the underlying soil as a component of 'soil gas.' Also cites other manuals which should be helpful to homeowners who want to install radon reduction systems in their homes themseleves.* 1989: 24 p.; ill. — S/N 055-000-00301-7 — $1.00

Search and Rescue, Aircrew Survival *Includes a section on survival in areas contaminated by radiation. Issued with metal spiral binding.* 1985: 121 p.; ill. revised ed.
D 301.35:64-5/985 — S/N 008-070-00565-4 — $6.50

Selection of Patients for X-Ray Examinations: Dental Radiog aphic Examinations *Presents the final report of the Dental Radiographic Patient Selection Criteria Panel and documents the development of patient selection criteria for prescribing dental radiographs. Selection criteria are based upon: type of visit, new or recall; dental development; child, adolescent, and adult; and risk category, the presence or absence of certain dental conditions.* 1987: 40 p.
HE 20.4617:D 43 — S/N 017-015-00236-5 — $2.00

NOTICE Prices shown were in effect on the above date. Government documents' prices are subject to change without prior notice. Therefore, prices in effect when your order is filled may differ from prices on this list. Since it is not feasible to change prices shown in Government documents in print, the price printed in a document may differ from the price in effect when your order is processed.

GP 3.22/2:

Sunlight Ultraviolet Radiation, and the Skin: January 1984 Through April 1989 *Includes 521 citations to journal articles in many languages on all aspects of the effects of ultraviolet radiation and the prevention and reversal of these effects.* 1989: 37 p. **S/N 817-005-00006-3** **$2.50**

Ultraviolet Radiation and Melanoma With a Special Focus on Assessing the Risks of Stratospheric Ozone Depletion *Especially prepared to provide the EPA Administrator with a basis for making a judgement about whether cutaneous malignant melanoma (CMM) can be reasonably anticipated to increase in incidence or severity if there is a modification of the column density of the ozone and consequent alteration in the flux of ultraviolet-B radiation reaching the Earth's surface.* 1988: 577 p.; ill. **S/N 055-000-00268-1** **$26.00**

Working Safely in Gamma Radiography: A Training Manual for Industrial Radiographers *Designed for classroom training in working safely in industrial radiography using radioactive sources that emit gamma rays. Industrial Radiography using X-ray machines, accelerators, and neutron sources is not covered in this manual. Not intended for self instruction.* 1982: 168 p.; ill. 1989-repr. **S/N 052-024-00002-1** **$18.00**

Y 3.N 88:31/0024

NOTICE

Supplies are limited and prices are subject to change without notice. You will be charged the price in effect at the time your order is processed. There is an additional 25% charge for orders to countries outside the United States and its possessions.

Order Form Mail To: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402
